

587

# 587

## THE MODEL OF EFFICIENCY.

The Model 587 is SmartWay designated by the EPA as fuel efficient and environmentally friendly and maintains the highest standards of operational efficiency, comfort and safety. It comes standard with front air disc brakes and electronic stability control for exceptional stopping distance performance, brake handling, ease of maintenance and peace of mind. A spacious interior features plenty of legroom, swivel seats, dual arm rests and 30 inches of walk-through space to a roomy, 75" sleeper that provides both a comfortable work and living environment.

The Model 587 is innovatively designed for long haul fleets, driving teams or owner-operators who demand uncompromising quality, maximum aerodynamic performance, superior fuel efficiency and the highest overall value.

For more information on the Model 587, contact your local Peterbilt dealer or visit [www.peterbilt.com](http://www.peterbilt.com)

The ultimate blend of form and function, Peterbilt's 587 interiors create a comfortable, productive environment for working and relaxing.

### FUEL EFFICIENCY

A streamlined hood and molded bumper smoothly divert air flow around the vehicle and trailer. Extensive wind tunnel testing and computational fluid dynamics optimize fuel-efficiency gains.

### MANEUVERABILITY

The Model 587 features steering geometry that provides an impressive curb-to-curb maneuverability improvement of 12% over previous designs.

### VISIBILITY

The innovative forward lighting system significantly improves visibility, including better overall road coverage. Standard halogen lights feature a 35% increase in brightness and a 79% bulb life improvement over other halogen systems.

### PACCAR MX-13 ENGINE

The PACCAR MX-13 engine brings a new level of innovation through industry-leading quality, exceptional reliability and proven performance. Power offerings are expanded with the addition of a 500 hp rating with 1,850 lb.-ft. of torque.
