220

Best-in-class
versatility.

MODEL

220

The Model 220 is Peterbilt's solution for pickup and delivery, beverage and refuse applications. Designed for driver productivity and uptime, the 220 features excellent visibility, an ergonomic interior and multiple options for easy upfit. With low chassis weight, the 220 is perfect for high-volume payloads, while the standard Allison automatic transmission and air disc brakes deliver excellent driveability and performance. The front cab panel provides easy access to service points for maximum uptime. The 220 is available with a GVW of 26,000 to 33,000 lbs. An automatic transmission is standard. A right-hand drive configuration is available for specialized applications like street sweeper and paint striper.

MODEL 220 SPECS

- PACCAR PX-7
 - Power: 200 – 260 HP
 - Torque: up to 660 lbs.-ft.
- Clear Rail Package Available
- Right-Hand Drive Configuration Available
- Collision Mitigation System Available

For more information on the Model 220, contact your local Peterbilt dealer or visit peterbilt.com.

VISIBILITY

Exceptional visibility results from the combination of an expansive windshield and large side windows.

INTERIOR

The spacious interior features a wrap-around dash with a driver information display, a multifunction steering wheel, and ample storage including overhead and rear-wall compartments.

SERVICEABILITY

Service checks are easy. The front panel opens for quick access to the air filter, coolant, refrigerant, washer fluid, power-steering fluid, engine oil and 12-volt electrical outlet.
