- 2 Integrated Multi-Camera Support
- 3 Apple CarPlay Connectivity
- 4 Bluetooth Phone & Media Connectivity
- 5 Application Bar with Media & Climate Controls
- 6 Customizable App Home Screen
- 7 Ergonomic Knob-On-Glass Control
- 8 Hands-Free Voice Controls

### PACCAR APPS

In-cab access to vehicle diagnostics, maintenance scheduling, performance monitoring, and remote fleet management.

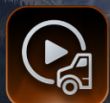

#### Vehicle Health

Delivers warning notifications that identify problems, explain causes and recommend solutions.

#### Dealer Locator

Finds nearby dealer locations based on GPS data and provides navigation assistance.

#### Driver Tutorials

Instantly access dozens of how-to videos covering key vehicle features and systems.

#### Operator's Manual

Access fully searchable electronic versions of the vehicle's operating manuals for easy reference.

### MULTI-CAMERA VIEW

Includes flexible camera configurations, seamless integration and digital & analog compatibility.

### APPLE CARPLAY APPS

Transforms the screen into a simplified, driver-friendly version of iOS.

#### CoPilot GPS

Offers truck-optimized navigation, weight thresholds, and hazards while providing real-time traffic updates and truck stop information.

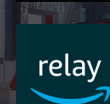

#### DriveWyze

Helps truck drivers locate weigh stations and provides real-time alerts about inspection locations, roadside hazards, and compliance issues.

#### Vector

Connects drivers with freight loads while providing route optimization, load management, and digital tools to streamline trucking operations.

#### Amazon Relay

Connects truck drivers and trucking companies with Amazon freight loads, offering work opportunities with transparent pay and simplified load booking.
